

Towards a Life after Coal: Signposts for a Sustainable Energy System

What: Focus discussion and short presentations

Topics: Unlocking a Just Energy Transition.

The Challenge:

How do we urgently decarbonise our energy systems, while considering energy justice and labour issues, in a time of political stagnation and vested interests?

We need innovative approaches to this problem and stories of success. Join us in taking the challenge on.

Where: Climate Hub at COP24

When: 14th December 2018
13:00 to 15:00

Audience: Estimated at 30 people
