

ONLINE SIDE EVENT

A HEALTHY ENVIRONMENT IS EVERY CHILD'S RIGHT

THE UN LEGALLY BINDING INSTRUMENT ON BUSINESS AND HUMAN RIGHTS MUST PROTECT IT

Children's right to a clean, healthy, and sustainable environment is inseparably linked to the full spectrum of their human rights. At the same time, the environmental and climate-related impacts of business activities are undeniable. Against this backdrop, this year's side event will bring together high-level speakers and child rights experts to highlight the urgent need for the legal recognition of children's environmental rights, as well as the establishment of strict, binding environmental and human rights due diligence obligations for business enterprises within the UN Business and Human Rights Treaty process. The event will also feature the launch of a policy paper presenting key child rights-based recommendations for the current draft of the LBI, with a particular focus on addressing environmental risks as a cross-cutting issue that affects a wide range of children's rights.
